Cava

design Studio Monica Graffeo

IT Nasce dall'idea di unire un rimando all'anfora, oggetto della memoria concepito per contenere l'acqua, con un materiale antico e prezioso come il marmo. Sinuosa e solida, Cava è un elemento senza tempo che diventa il fulcro della stanza da bagno.

EN It stems from the combination of the concept related to amphora, an object of memory designed to contain water, with an ancient and precious material like marble. Sinuous and solid, Cava is a timeless element that becomes the focal point of the bathroom.

Vasca Cava 180x70x55h cm in marmo Rosso Levanto.

Maestri artigiani trasformano la pietra grezza, rivelando la sua anima attraverso linee fluide e forme armoniose. La vasca, con la sua presenza maestosa, diventa il fulcro intorno al quale ruota l'intera stanza, invitando al relax e alla contemplazione.

Master craftsmen transform raw stone, revealing its soul through sinuous lines and harmonious forms. The bathtub, with its majestic presence, becomes the focal point around which the entire room revolves, encouraging relaxation and contemplation.

IT Un progetto che prende ispirazione dall'idea di plasmare il marmo, elemento che in natura è modellato dallo scorrere dell'acqua e degli agenti atmosferici, per estrarne una conca spontanea, organica, asimmetrica.

EN A project inspired by the concept of shaping marble, a material naturally molded by the flow of water and atmospheric agents, to extract a spontaneous, organic, asymmetric bathtub.

Vasca Luni 170x90x55h cm in marmo Carrara.
Sgabello 50x26x42h cm in Corian® Deep Nocturne.

Luni bathtub 170x90x55h cm in Carrara marble.
Stool 50x26x42h cm in Corian® Deep Nocturne.

Focus on

Luni

“L'idea è stata ricavare dal marmo una forma spontanea e organica, come fosse il risultato di un continuo scavare degli agenti atmosferici sulla materia.”

"The idea was to obtain a spontaneous and organic shape from marble, as if it were the result of a continuous digging of the atmospheric agents on the matter."

Luni, nome in antico romano del marmo di Carrara, è un riferimento alla fluidità delle forme storicamente ottenute dalla lavorazione artigianale del materiale.

Luni, the ancient Roman name for Carrara marble, is a reference to the fluidity of forms historically achieved through the artisanal craftsmanship of the material.

EN Pure is a harmonious synthesis of essential volumes: a cylindrical column paired with a basin, shaped like a chalice. This design is meticulously crafted with optimal depth and structure to ensure functional water accommodation.

“Sintesi di ordine ed equilibrio.”

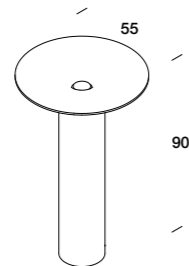

"A Summary of order and balance."

- Studio Batoni

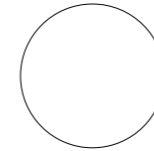

Un LED collocato all'estremità della colonna portante crea un effetto luminoso che valorizza la trasparenza del lavabo, diffondendo nell'ambiente una luce d'atmosfera.

A LED placed at the end of the supporting column creates a luminous effect that enhances the transparency of the basin, spreading the atmosphere of an ambient light.

Ethere

design Studio Yonoh

IT Sottile e funzionale, Ethere nasce dalla ricerca della semplicità e delicatezza priva di ornamenti aggiuntivi. L'idea di far sparire l'acqua dal lavabo in modo elegante e misterioso, eludendo la vista del drenaggio, ci ha affascinato.

EN Thin and functional, Ethere is born from the pursuit of simplicity and delicacy devoid of additional ornaments. The idea of making the water disappear from the sink in an elegant and mysterious way, eluding the view of the drainage has fascinated us.

Lavabo Ethere Ø48x90h cm in Corian® Deep Nocturne con vassoio in marmo Nero Marquinia. Specchiera Cutout Ø120 cm.
