MARSEILLES II BY HENREDON

The French are, above all, romantic.

Spirited, vivacious, full of joie de vivre. With a genius sense of style.

And their furnishings...the same. Like Marseilles II.

18th century bedroom, dining room and occasional designs

that capture the earthy exuberance, the energy,

the vibrancy that seems to emanate from the French.

These are beautiful and beautifully sculpted designs;

crafted in French walnut, seasoned with a rich warm finish.

Sparked by decorative ormolu; and special leafing and custom paint options.

Headboard detail

The headboard of this dramatic bed features a deeply carved cartouche at the center with complementing details on the shoulders. For design interest, the panel is veneered in French walnut in a double book-and-butt match pattern that accentuates the beauty of the wood. Side and foot rails are bordered with acanthus carvings and end in a French cabriole leg.

378-Marseilles with Traditional Platinum Leafing
W78 D23 H41 3/4 in.
Nine drawers with jewelry tray in top right drawer.
Philippine mahogany solids, French walnut veneer.

The graceful motion of this triple dresser suggests it was influenced by Venetian design. In the 18th century, many craftsmen traveled from Italy to France to study the French style. Often this resulted in pieces with dual heritage, such as this dresser. Serpentine drawers are splendidly carved with foliate "C" scrolls and coquille shell accents. Acanthus leaves grow from the sculpted escargot footed cabriole legs. French walnut end panels are framed with serpentine moldings carved with "C" scrolls.

FINISH

At Henredon finishing a fine piece of wood furniture is an art involving many hand operations. While we are very careful to formulate each finish and apply it to exacting standards, variations in color will occur. Woods vary in their acceptance of finishing materials; hands vary in their touch. The finishes shown here are as close to the actual finishes as the most sophisticated photographic reproduction methods can produce.
