The inspiration for this design came from a table created for an early 20th century yacht. Originally, the heavy polished nickel plated band around the edge was for practicality; today it adds beauty and interest. It is held in place with rivets. The base is inlaid with metal fillets, and top veneers are set in a grid pattern in opposing directions—style features that contribute to the uniqueness of the piece.

FINISH

At Henredon finishing a fine piece of wood furniture is an art involving many hand operations. While we are very careful to formulate each finish and apply it to exacting standards, variations in color will occur. Woods vary in their acceptance of finishing materials; hands vary in their touch. The finishes shown here are as close to the actual finishes as the most sophisticated photographic reproduction methods can produce.
