## ART OF THE GARDEN

Fabrics, Wallpapers & Paint

# Sanderson

Renowned for hand-drawn designs and English garden palettes, Sanderson brings a timeless and easy elegance to modern family life and offers the warmest of welcomes.

Sanderson's Art of the Garden collection beautifully captures the evolution of garden and landscape design from the Persian Gardens of 500BC to the Baroque Gardens of the 17th Century and beyond, taking you on an enchanting journey through time.

For centuries, many artists have travelled the world recreating the magnificence of grand estate gardens into watercolours and botanical drawings. Combining history with the modern day, Art of the Garden takes its inspiration from these artworks and translates elements of these spectacular settings into a collection of designs that embody the British love affair with horticulture.

Designed by hand in the Sanderson studio, the collection comprises Art of the Garden fabrics and wallpapers, which are complemented by the delicate Palm Grove embroideries and Moorbank, a tactile plain. The rich, botanical colours within the Sanderson Paint range, effortlessly harmonise with this captivating collection.

Sanderson's *Woodland Walk* collection evokes the quiet influence of nature; we take pleasure in a tranquil place away from the hustle and bustle of modern life. The outdoors revives our senses, makes us feel alive. All of these treasured sentiments, inspired by British woodlands and wildlife, are found in the natural cloths, the beautifully hand-drawn and painted imagery and the colour palette.

All the elements of the collection work together harmoniously to create a sophisticated, modern country style.

Sanderson's Waterperry collection embodies a relaxed, impressionistic painting style, inspired by the horticultural finesse found in British country gardens.

Capturing the serene nature of these tranquil spaces the Waterperry fabrics and wallpapers display an abundance of breathtaking, spontaneous designs that feature a diverse assortment of flowers, plants and trees.

These beautifully hand drawn and painted designs are complemented by the crisp, fresh patterns of Bay Willow fabrics and three charming plains; Cherwell, Helena and Arley.

A selection of paints from the Shades of Sanderson range are suggested throughout for an effortlessly elegant interior.

# Little Sanderson ABRACAZOO

Decorating is child's play with Little Sanderson!

Through the eyes of children, the Sanderson stylists have created imaginative and playful settings, full of magic. Enter into the make believe worlds of pirate Treasure Maps and the fantasy lands of FAIRY CASTLES, or learn by play with the fun but educational ALPHABET ZOO. The spectrum of designs within the first Little Sanderson collection, ABRACAZOO, beautifully illustrates the imaginary worlds of children. The collection ranges from classic themes to more quirky, contemporary imagery; choose from the animated DOGS IN CLOGS, or the vintage TWO BY TWO. With further designs depicting pastimes and playthings, the collection is aimed at the nursery to early school years.

The bright and fresh BRAMLEY CHECKS are the perfect complement to these joyful designs.

All prints and wallpapers are printed in the UK.

## AEGEAN COLLECTION & ICARIA VELVETS

# AEGEAN COLLECTION

Sea sprays, tumbled glass washed up on the beach, coral, fossils and wind-blown cascades of blossoms set the scene for the Aegean Collection, a fusion of natural imagery, organic textures and rich mineral colours.

The six luxurious weaves, three fabulous digital prints and three delicate embroideries contained within the fabric collection can be used separately or together to create softly feminine, or smart and contemporary interiors.

The motifs were inspired by natural elements of the seashore and the Mediterranean countryside with sparkly corals, stylised foliage and soaring birds. A subtle thread of oriental influence also weaves its way through the seven co-ordinated colour sets in the collection. The fabrics are complemented by the magnificent Aegean Vinyl Wallpapers and the luxuriously textured Icaria Velvets.

## THE PRINTS

These magnificent, multi-coloured abstract print designs are printed on a supple linen/viscose quality which is suitable for both upholstery and curtains.

The ten wallpaper designs have been printed using a combination of matt and metallic inks which create lustre and depth that gives walls a subtle, ever changing feel. Embossed with rich effects, from silk slubs to fine linen weaves, these vinyl wallcoverings offer a textural finish and have the added advantage of being durable and hard wearing – useful for high traffic family rooms and hallways, kitchens and bathrooms.

SOJOURN FABRICS, WEAVES & WALLPAPERS,  
BOHO VELVETS, BYRON WOOL PLAINS

Inspired by a love of global textile patterns and the treasured objects we bring back from far flung places, Sanderson's Sojourn range evokes the spirit of bohemia and adventurous travel, in a very English way. This creates a fresh approach to decorating, where graphic elements are juxtaposed with softer more organic forms and tribal patterns.

The collection is a feast of fabrics, including prints and embroideries, kilims and suzanis, Paisley crewel-work, velvets and wools all complemented by sophisticated wallpapers.

The dynamic colour palette ranges from vibrant magenta to rich russets, teal and indigo through earth tones and neutrals. The result is a bold and vibrant collection that picks up on the trend for mixing pattern, texture and colour.

Create a global adventure in your home!

# Laszlo

A contemporary collection of cut velvets designed in the Sanderson studio, Laszlo is inspired by designs of the 1950s, a decade which transformed the boundaries of interior decoration. Leaf stripe motifs, geometric blocks of colour and stripes, inspired by 1950s pottery, reflect the vibrancy of the era.

A bold and iconic collection of prints, wallpapers, embroideries, weaves and velvets, the 50s Collection celebrates a decade of design which transformed the boundaries of interior decoration.

The Festival of Britain in 1951 took place after a tough post war era, which saw designers starved of commissions and the ration-weary public bored with wartime dreariness and a lack of variety. The optimistic spirit driven by the Festival led the way for new inventiveness, creating a need for a fresh contemporary look.

Suddenly homeowners, especially young people, wanted to be more creative in their interiors. Out went the old dreary and drab furnishings of the past, in came bold bright colours such as vivid pillar-box red, kingfisher blues and acid greens. This new modernist era also brought great advances in science such as atomic power, use of radioscopes in medicine and industry and the discovery of the structure of DNA. These breakthroughs were echoed in design with molecular patterns being a huge influence on textile designers at the time. Sixty years on this style is still modern and vibrant.

The Sanderson 50s collection combines original 1950s designs from the Sanderson archive with patterns from contemporary artists who have taken inspiration from this era.
