OUR HISTORY

In 1990, Marco Bellani founded Carpanese Home Italia with only one goal: to create the most luxurious interior furniture using only the best materials available combining traditional constructing method and innovating design.

The company is based in the hearth of furniture district in Northern Italy, near Verona.

After 10 years working with the Italian market, Mr. Bellani decided to export his production all over the world, creating a new concept of quality related to our made in Italy production.

In 2021, we are now working with more than 30 Countries all over the world.

TAYLOR MADE

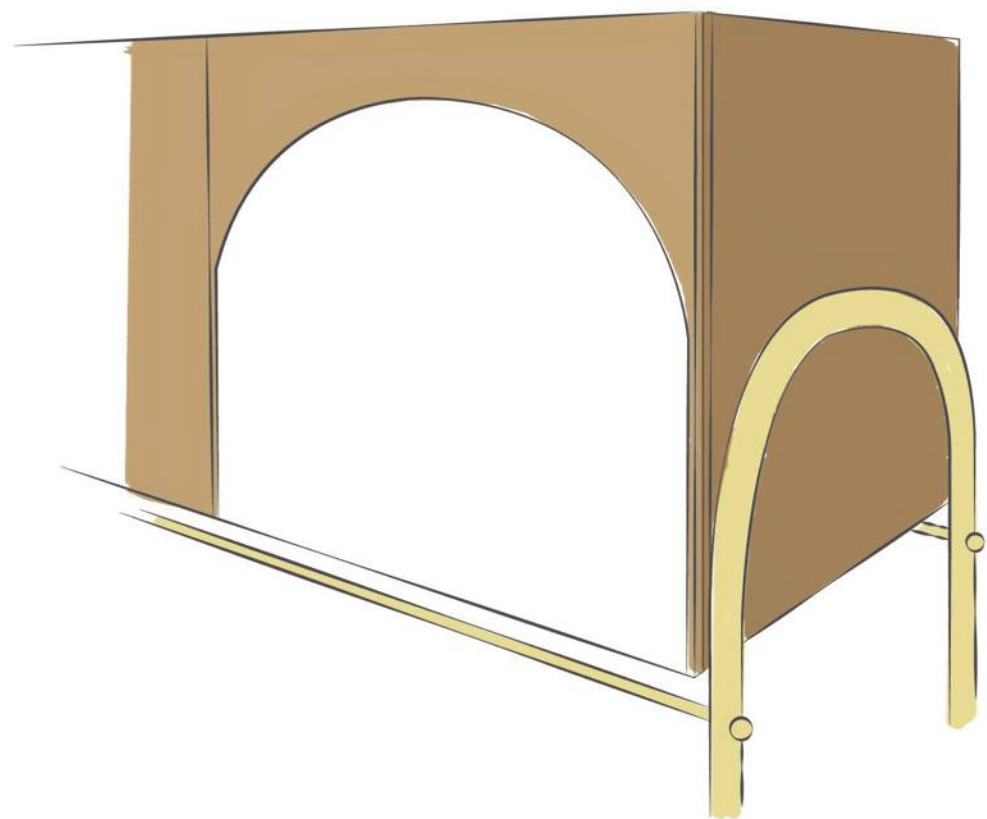

TRADITION & INNOVATION

One of our main characteristics have always been the contrast created between traditional furniture and innovations like research of new materials.

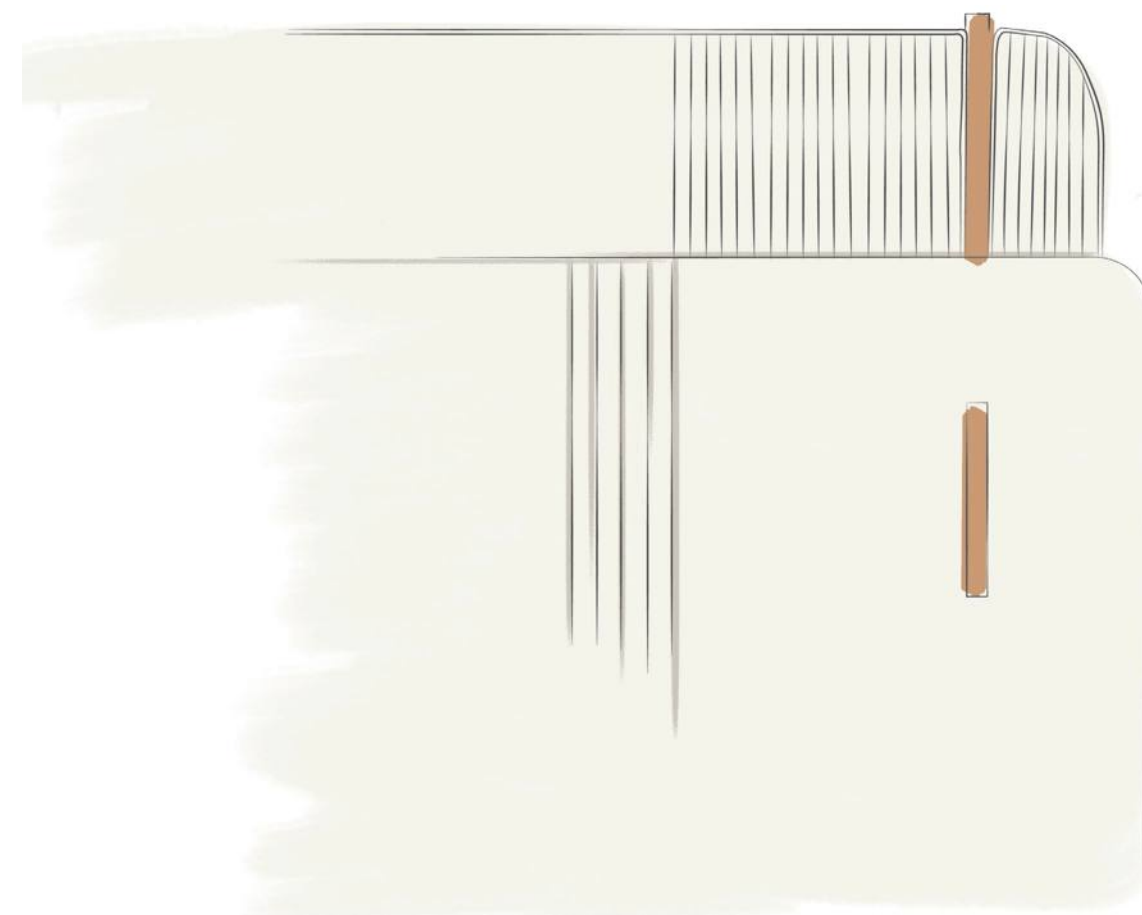

This contrast is possible thanks to the vision of Marco Bellani, who wanted to preserve the traditional techniques of construction, but also wanted to keep improving and find new ways to create timeless pieces.

"Looking forward without forgetting where you come from"

UNIQUE STYLE

Every our collection is designed in Italy by masters of tradition with the only goal to be different and be special. Every line, every aspect and even the smallest detail is taken into consideration to create unique pieces of design. These details that characterize every item are also studied to be the perfect match for every single piece in our wide range of products to allow the possibility to mix each and every one of them.

MADE IN ITALY

Every piece is Hand-made and crafted in Italy, using only the best and most exclusive materials.
We produce every single piece in our factory in Sanguinetto (Verona), in the hearth of the traditional furniture district, in Northern Italy.
For all these reasons we can provide the prestigious “100% Made in Italy Certificate”.
Made in Italy is not only a synonym of quality, but also represent the craftsmanship and the culture that derives from years of wood-working art.

QUALITY

Quality is one of our main goals and, to reach the high standard that we fix for ourselves, we pay attention not only to the techniques used to build every piece, but also to the materials used. The key words are “Selection” and “Control”. Every component is tested for strength, durability and quality. Every piece of wood, fabric, leather or nabuk needs to pass a very strict selection. Every piece is controlled before, during and after production and needs to match company’s quality standards.

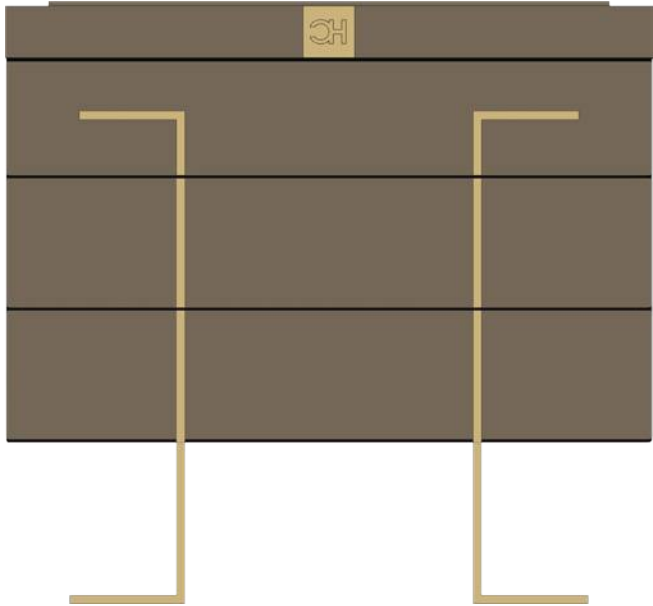

NOT ONLY FURNITURE

We don't sell only furniture, we sell a philosophy of living.
To fulfill all our client's wishes, we decided to produce also
Lights, Boiserie, Wallpapers, Carpets, Doors...everything to create
a complete package.
The main idea is not to sell single material pieces, but to give our
customers a living experience, an all new concept of atmosphere
created by beautiful Italian taste and passion for what we do.
