EQUILIBRIUM

The Collection positions itself as an evolution of traditional classic style: the re-interpretation of historical shapes, combined with the harmonisation of decorative elements, bringing eclectic silhouettes to life. In the meanwhile, through our research on materials and technologies, the company is aiming at presenting something never seen before.

An “Equilibrium” between essential shapes and classic metal decoration, the heritage of Cappelletti. The outcome is a collection where craftsmanship and attention to detail collaborate to create aesthetic accuracy that a product with “Timeless Luxury” must incorporate. A winning approach capable of pushing creativity beyond its limits and in the end, defining a new classic style.

A Harmonious Space

The upholstered armchairs and sofas are designed using a combination of refined fabrics which has been enriched with 24k gold plated metal details. The central trinity of three tables can either be united or used as stand alone items and are an exclusive union of materials and craftsmanship. The main table is composed of a 24k gold plated metal structure,

a glass top and a mirrored base. The second piece's base is made of wood, the top is Calacatta marble which are united by a decorative metal, the company's distinctive signature style. The third piece is composed of an upholstered base which perfectly matches the seating arrangement, and a wooden top embellished with gold leaf.
