design Ronan Bouroullec

Tavoli alti con piano in cristallo stratificato con una superficie ondulata dall'aspetto liquido, disponibile in finitura neutra o nei Cristalli Trasparenti Colorati. Sostenuto da una base composta da un tubo cilindrico in acciaio inox lucidato a specchio e da un piede conico in cristallo colato, specchiato tramite argentatura manuale. Il piano è smontabile e fissato alla base tramite una piastra d'acciaio inox lucidata a specchio.

High tables with a layered glass top with a wavy liquid-look surface, available in a neutral finish or in Coloured Transparent Glass colours. The top is supported by a base made up of a cylindrical mirror-polished stainless-steel tube and by a conical cast crystal foot, mirrored by manual silvering. The top is removable and is fixed to the base with a mirror-polished stainless-steel plate.

Crystal Table

design Philippe Starck

Tavolo alto con piano in cristallo trasparente 19 mm e base in cristallo trasparente 25 mm temperato, incollato a UV. Top e base sono fissati tra di loro e smontabili grazie ad un sofisticato ed elegante sistema di piastre in acciaio inox lucidato a specchio, perfettamente curate in ogni dettaglio. Dei discreti piedini in acciaio inox lucidato a specchio rifiniscono ed impreziosiscono l'oggetto.

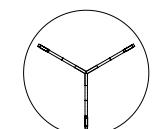

High table with 19 mm transparent glass top and 25 mm tempered transparent glass, UV bonded. Top and base are fixed to each other and are removable thanks to a sophisticated and elegant system of mirror polished stainless-steel plates, perfectly finished in every detail. Discreet mirror polished stainless-steel feet finish and embellish the table.

*"The Cristal table is both strong, elegant and invisible.
Do you think it is possible? Yes." Ph.S*

*«La table Cristal est à la fois résistante, élégante, et invisible.
Pensez-vous que cela soit possible? Oui.» Ph.S*

Collezione di arredi composta da mensole, consolle, librerie e tavoli bassi, completamente realizzata in uno speciale cristallo verde o extrachiaro acidato bifacciale da 10 mm temperato. Ogni articolo è una composizione di lastre di cristallo sovrapposte che, giuntate tra di loro in purezza grazie all'incollaggio UV, danno forma a raffinati arredi scultorei dall'assoluto rigore formale. Le mensole possono essere appese in entrambe i versi.

Collection of furniture comprising shelves, consoles, bookcases and low tables, completely made of a special 10 mm tempered green or extra-clear double-sided acid-etched glass. Each item is a composition of interlocked and overlapping glass sheets which, through a special UV bonding method, realizes pure and refined sculptural furnishing elements characterized by a rigorous form. The shelves can be wall-mounted in either orientation.

design Yabu Pushelberg

Tavolo basso con top e base in cristallo extrachiaro 12 mm temperato. Il top è sostenuto a sbalzo da una cassetiera con cassetti con apertura push-pull, rivestita in specchio giuntato a 45°. La base è totalmente argentata a specchio, mentre il top è argentato solo in corrispondenza della cassetiera, rimanendo trasparente nella parte in aggetto. Un solido sistema di fissaggio garantisce stabilità e consente il disassemblaggio dei vari elementi.

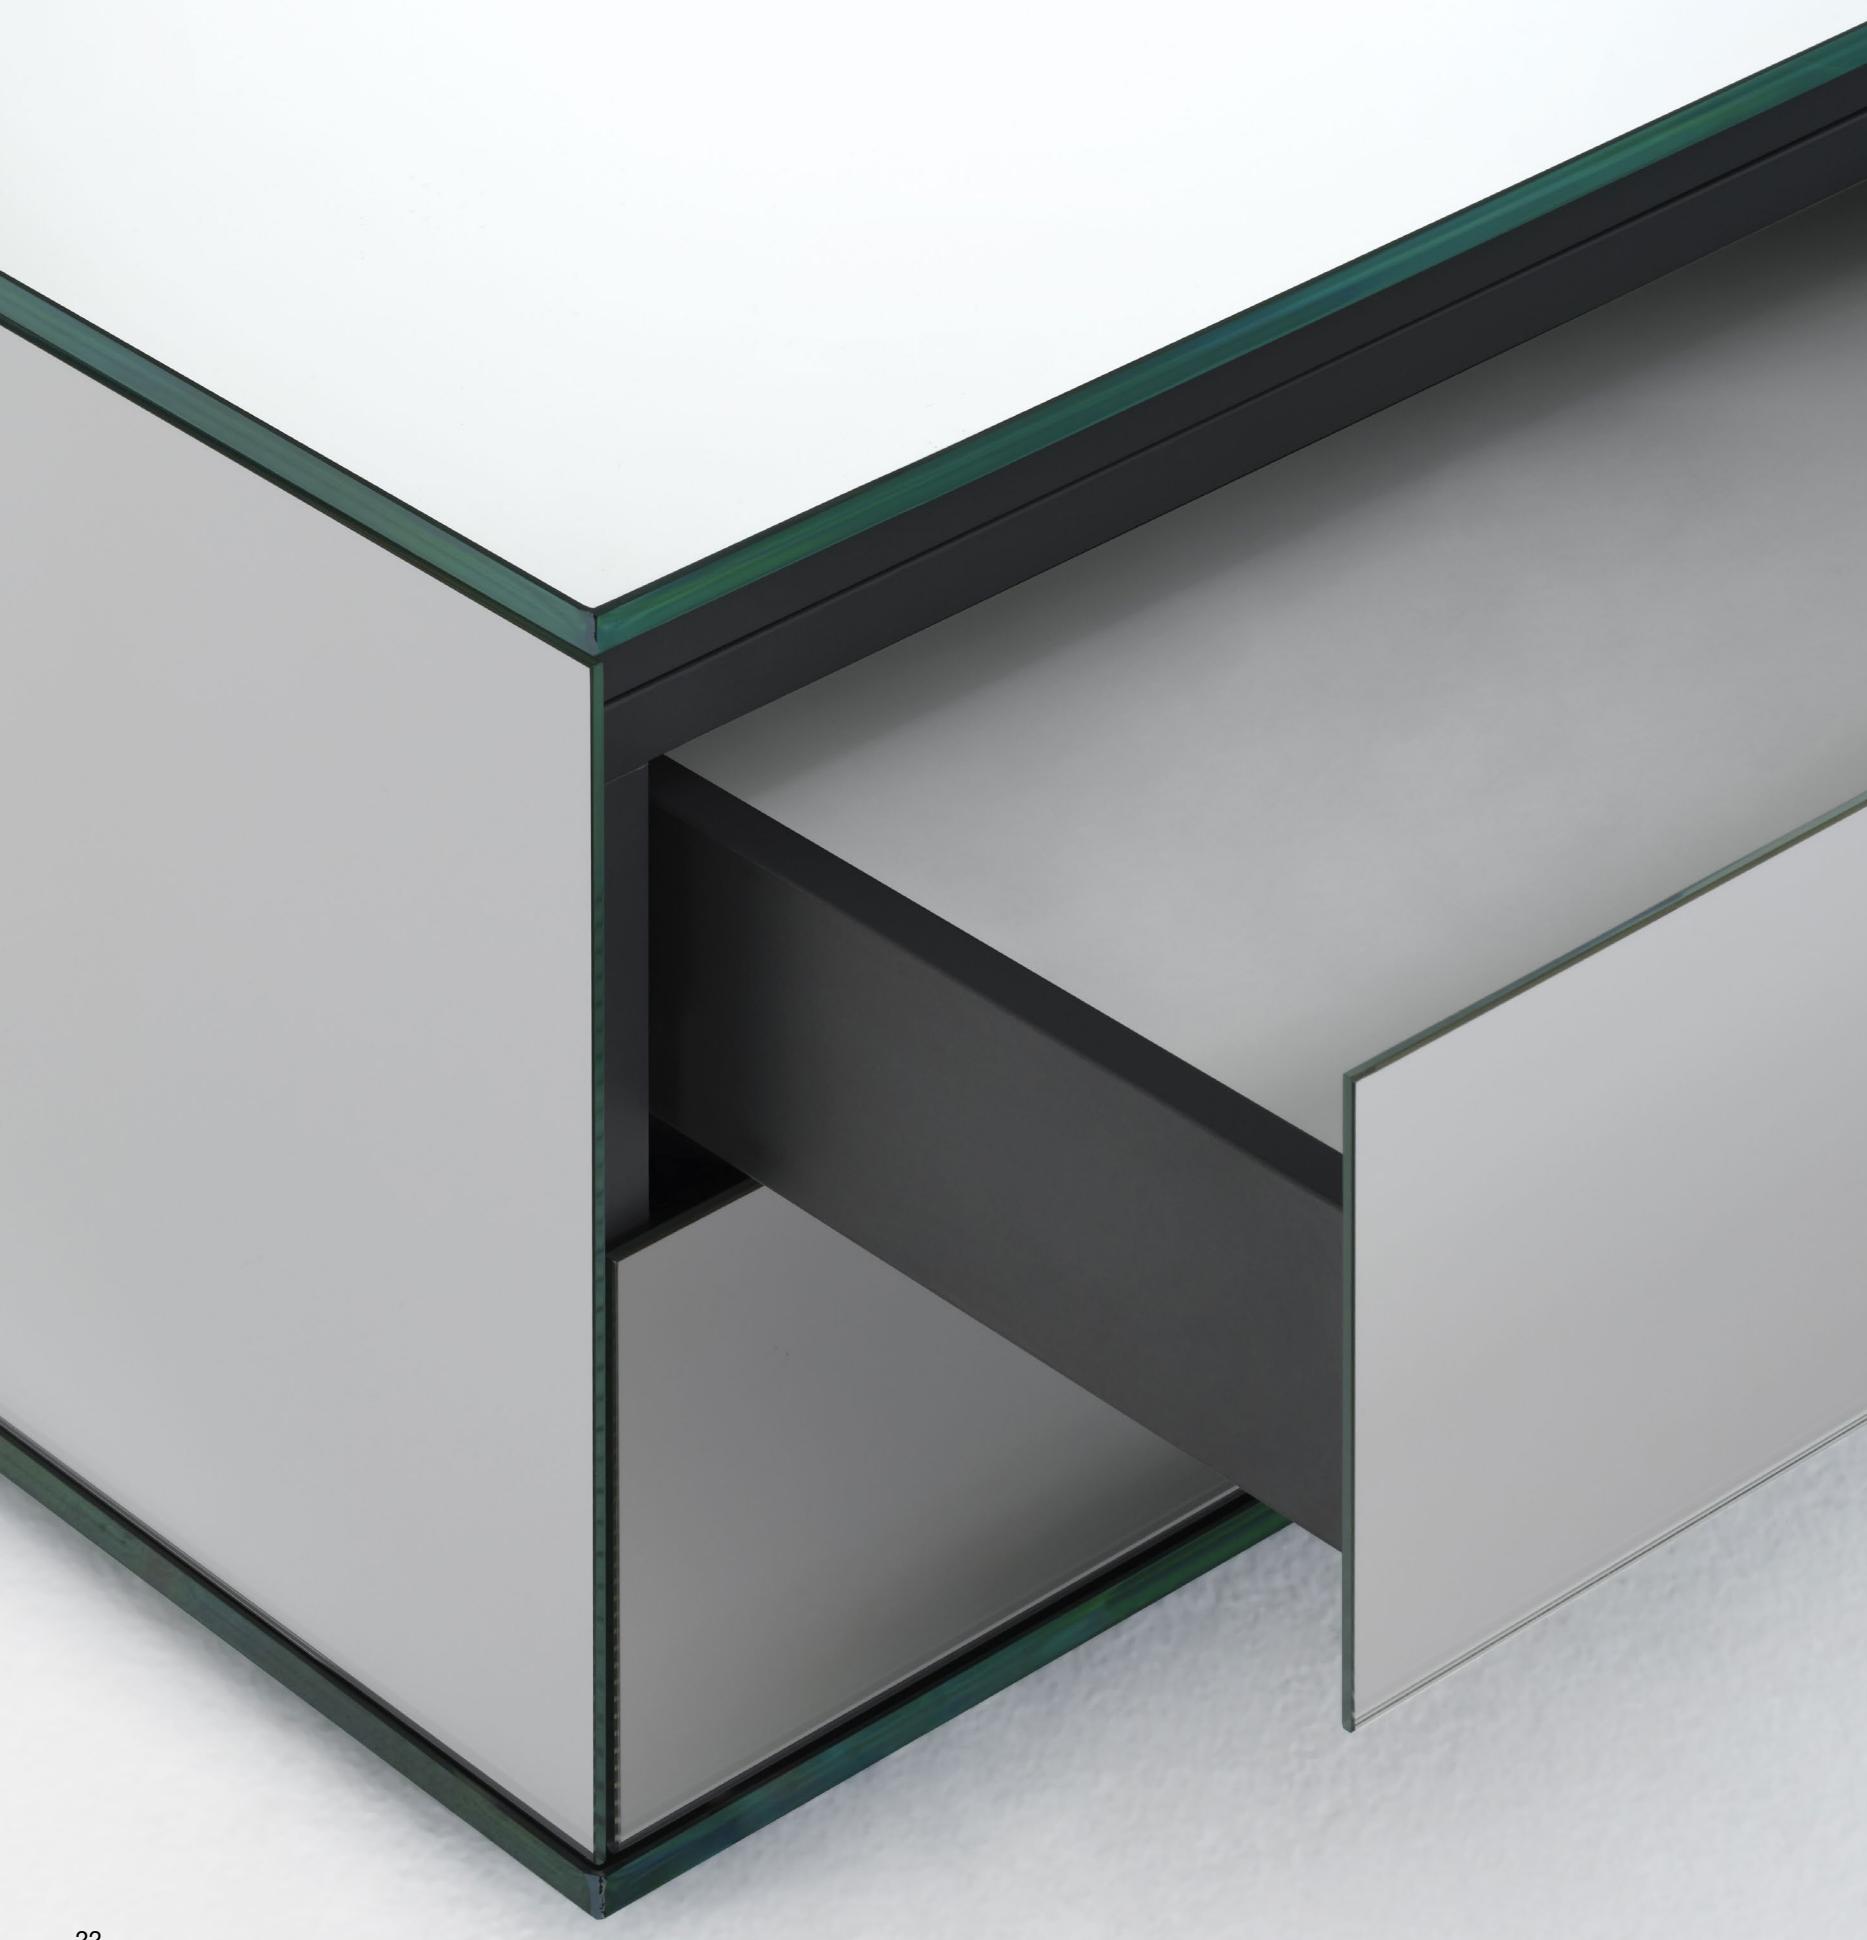

Low table with top and base in extra clear tempered 12 mm glass. The cantilevered top is supported by a drawer unit with push-pull opening drawers, covered with mirror joined at 45°. The base is completely mirrored, whilst the top is mirrored only where the drawer unit is located, and remains transparent in the protruding part. A solid fixing system creates the stability and allows movement of the different elements.

design Patricia Urquiola

Collezione di tavoli bassi, tavoli alti e consolle, i cui componenti sono realizzati fondendo sfridi di cristallo con speciali additivi, così da ottenere delle masse vetrose irregolari, ricche di bolle e dalle superfici ondulate. Disponibili in cristallo extrachiaro o bronzo. Nei tavoli alti con gambe in cristallo extrachiaro fuso il piano è in cristallo float acidato extrachiaro, con gambe in cristallo bronzo fuso il piano è in cristallo float bronzo acidato. Le gambe, smontabili, sono fissate al piano tramite piastre incollate e giunti in alluminio spazzolato anodizzato, disponibile nei colori argento, rosa, verde o bronzo.

Collection of low tables, high tables and consoles: their components are made by fusing scraps of glass with special additives to obtain irregular glass masses, rich in bubbles and with random undulating surfaces. They are available in extralight or bronze glass. In the high tables with legs in extralight fused glass the top is in float acid-etched extralight glass, with legs in bronze fused glass the top is in acid-etched bronze glass. The legs are fixed to the top thanks to stainless steel plates glued plates and anodised brushed aluminum joints, available in silver, pink, green or bronzed.

The 5 O'clock Lie

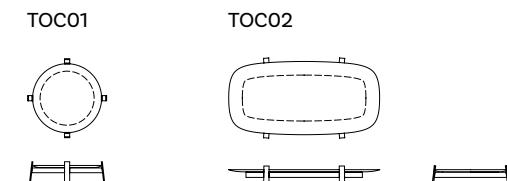

design Philippe Starck

Tavoli bassi in cristallo bronzo o extrachiaro 8 mm, che, grazie ad innovative e complesse tecniche di lavorazione, è curvato su tutto il perimetro e argentato manualmente a regola d'arte. Si ottengono così dei piani in specchio con un bordo rialzato che riflette le immagini distorcendole in maniera inaspettata, mentre la superficie al centro rimane perfettamente piana, con un riflesso fedele. Le gambe, leggermente inclinate, e la struttura portante sono in acciaio con finitura nickel (per il piano in specchio extrachiaro) o bronzo (per il piano in specchio bronzo), ottenuta tramite trattamento galvanico. Disponibili in due formati, con altezze differenti.

Low tables in bronze or extra clear 8 mm glass which, thanks to innovative and complex manufacturing techniques, is curved along the perimeter and perfectly manually silvered. In this way you create mirror tops with a raised edge giving unexpectedly distorted reflections, leaving the centre surface completely even and with a true reflection. The legs, slightly inclined, and the supporting structure are in nickel finished steel (for the extra clear mirror top) or bronze (for the bronze mirror), obtained through a galvanic treatment. They are available in two sizes, with different heights.

"Will we be scared to put our glass on a piece of infinity?" Ph.S

«Redouterons-nous de poser notre verre sur un morceau d'infini?» Ph.S

Quantum

Librerie composte da scatole in cristallo incollato a 45° di diverse misure, sovrapposte in maniera sfalsata ed irregolare. È disponibile una versione in cristallo extrachiaro con schienale in cristallo fumé, bronzo, extrachiaro o trasparente colorato, oppure una variante realizzata completamente in cristallo specchiante. Tutte le finiture sono in cristallo di sicurezza stratificato o temperato. Grazie a sofisticate cerniere minimali in alluminio spazzolato anodizzato inox, è possibile chiudere i vani a piacere (a discrezione dell'utente) tramite antine in cristallo extralight o specchiante temperato con sistema di apertura push-pull. Le scatole appoggiano su una base in legno di rovere laccato nero poro aperto e sono fissate tra di loro per mezzo di minimali giunti in metallo cromato. Ogni composizione è disponibile in versione fruibile da un lato o da due lati.

Bookcases made of boxes of different sizes in glass, glued at 45° and deliberately overlapped in a misaligned and irregular way. It is available with versions in transparent extra clear glass, with back panels in smoked, bronze or transparent coloured glass finish or alternatively completely in mirrored glass. All finishes are in laminated or tempered safety glass. Thanks to sophisticated minimal hinges in brushed inox anodised aluminium, it is possible to close the units as required with tempered extralight or mirrored glass doors with push-pull opening. The boxes lay on an oak black lacquered open pore base, and they are fixed to each other by means of minimal chromed metal joints. Each composition is available in single-or double sided versions.

i mirror

design Tokujin Yoshioka

Specchiera da terra autoportante realizzata in cristallo extrachiaro 12 mm curvato e argentato a mano. I bordi verticali sono impreziositi da una raffinata molatura a filo toro. Sul retro, rifinito con una verniciatura color argento, è presente un discreto rinforzo che irridisce la lastra di cristallo. Disponibile in tre diverse larghezze, con una zavorra smontabile che conferisce stabilità. La versione più stretta (codice IMI01) è provvista anche di una base girevole.

Free standing floor mirror made from 12 mm extra clear curved and manually silvered glass. The vertical edges are embellish by a unique bullnose edge polishing. On the back, finished with a silver-grey lacquering, there is a discrete reinforcement which stiffens the glass panel. It is available in three different widths, with a removable counterweight which gives stability. The narrower version (code IMI01) has a swivel base.
